

Student selected for Queen of Diamonds

Marissa Conrad, Minster High School, has recently been selected to compete in the Queen of Diamonds Showcase North (QDSN) at Kent State University on Jan. 5 and 6, 2013.

The Queen of Diamonds is now in its 19th season. The QDSN is part of the Queen of Diamond's Showcase events, which are the largest fast pitch softball showcases of its kind in the United States.

This event continues to attract athletes from more than 20 states and two Canadian provinces. The Queen of Diamonds North and South have more than 2,000 applicants in which 264 athletes are selected.

This showcase is very

unique because athletes must apply to this event individually and are selected based on a variety of criteria ranging from ability, potential, academics, graduation year, coaches requests and referrals.

Marissa Conrad is a junior who has demonstrated outstanding skills playing third base for her high school team and for the Ohio Fury 18U travel team during the summer and fall for coach Scott Robinson.

During her high school career, Conrad has been named to the First Team All MAC (Midwest Athletic Conference) in both softball and golf.

Conrad is the daughter of Dave and Dawn Conrad of Minster.
